

RE/MAX Top 10 Safety Tips for you and your family

RE/MAX believes that there is so much to live for and be proud about being a South African and that homeownership, accompanied by safety and security for each family, is a basic right each South African wants to enjoy within the walls of their own home.

1. Make sure that any person leaving a home can get into their car, start it, lock the doors and be ready to drive off before any gates are opened.
2. Visitors that have to park in the street must be escorted. Homeowners with dogs can do well to take the dog along when venturing out of the house, especially late at night.
3. When a friend rings your front door bell, let them enter as quickly as possible.
4. Do not leave your property if you spot a suspicious looking person in the area.
5. Wherever you are, on the street, in an office building or shopping mall, driving, or waiting for a bus, stay alert.
6. Make sure that the area of your main gate and driveway are very well lit at all times.
7. It is important that the number of your home is visible from a distance.
8. Wherever possible, it is advised that security gates are installed.
9. If you have electric gates and a buzzer system, ensure that visitors can reach the buzzer without having to get out of their cars.
10. Know all emergency numbers by heart, or place them on speed dial.

Follow these simple home safety tips, they could save your life!
